

## WEBSITES RELATED TO INTERESTING INFORMATION ABOUT INDUSTRIES & MINES, MINERALS AND MINING

Country	Name	Website	Description	Languages
Argentina	Virtual City of Anthropology and City of Archaeology	<a href="http://www.antropologia.com.ar/turismo/congreso2003/ponecias/Aldo_Ramos.htm">http://www.antropologia.com.ar/turismo/congreso2003/ponecias/Aldo_Ramos.htm</a>	In here you are offered the history if industrial heritage, culture and information what phases historic mining patrimony live nowadays.	ES
Portugal	The Centre of Mineral Resources, Mineralogy, and Crystallography "Creminer"	<a href="http://creminer.fc.ul.pt/index.html">http://creminer.fc.ul.pt/index.html</a>	"Creminer" is devoted to research and development in Earth and Space Sciences related to mineral resources from land as well as the ocean floors, mineralogy and crystallography and their applications. Also, the genesis and environmental management is part of "Creminer´s" research.	PT EN
Spain	Spanish Ministry for Education and Science	<a href="http://recursos.cnice.mec.es/bancoimagenes2/buscador/index.php?expresion=%22miner%EDa%22">http://recursos.cnice.mec.es/bancoimagenes2/buscador/index.php?expresion=%22miner%EDa%22</a>	In this image bank you will find different images of mines, mining, mining constructions, and types of mines, various constructions and machines used for mining, also various photos from mining museums.	ES
	"Bocamina"	<a href="http://www.bocamina.com/es/home.htm">http://www.bocamina.com/es/home.htm</a>	The most complete web about fine minerals from Spain and their environment. Here you will find 300 exceptional mineral images, 450 selected images from main localities and 130 Iberian head frames of mining industry.	ES

Switzerland	Athena Earth Sciences Resources	<a href="http://un2sg1.unige.ch/athena/mineral/minlinks_frame3.html">http://un2sg1.unige.ch/athena/mineral/minlinks_frame3.html</a>	The web site provides various links related with mineralogy, mining and mines – classification, special related dictionary, databases (DMMRT, ATHENA, Isotope, Mlindat, etc.) and ore deposits. What is more, links with mineral localities, and related universities and institutes are provided.	EN
The United Kingdom	National Union of Mineworkers	<a href="http://www.num.org.uk/?p=tour&amp;c=council">http://www.num.org.uk/?p=tour&amp;c=council</a>	The history of mining trades unions in the Great Britain and different historic events related with miners and mining can be found on this web-site. Moreover, historic speeches dating 1936 years to present times are provided for your interest.	EN
	"iKnow Wales"	<a href="http://www.iknow-wales.co.uk/tourist_information/all_wales/all_wales/welsh_mining_history.htm">http://www.iknow-wales.co.uk/tourist_information/all_wales/all_wales/welsh_mining_history.htm</a>	You are offered to discover coal and copper mining history in the western part of the United Kingdom, Wales. Various photos from different historic period also can be founded.	EN
The United States of America	"How stuff works"	<a href="http://reference.howstuffworks.com/textile-encyclopedia.htm">http://reference.howstuffworks.com/textile-encyclopedia.htm</a>	Information about different industries are provided – textile, mining and metallurgy, transportation, chemical industry and many more you can find on this web-site.	EN

<p>The United States of America</p>	<p>Mineralogy database</p>	<p><a href="http://webmineral.com/">http://webmineral.com/</a></p>	<p>This mineral database contains 4.442 individual mineral species descriptions with links and a comprehensive image library. Mineral data for individual species are linked to mineral tables by crystallography, crystal structures, X-Ray powder diffraction, chemical composition, physical and optical properties, Dana's New classification, Strunz classification, mineral specimen images, and alphabetical listings of mineral species. There also are extensive links to other external sources of mineral data and information.</p>	<p>EN DE FR ES PT JP FI IT SE RU NL DN NO CR HU PL CZ GR BU RO SR SI</p>
