

ACCOMMODATION IN HUELVA

SOME TIPS

- Remember that most of the owners of the flats usually speak only Spanish, so you may be required to use an online translator if necessary. Try to communicate in Spanish since it will increase your options to find an accommodation.
- You can ask your home Erasmus coordinator about students that have previously stayed in Huelva, so they can give you some advice or information.
- In case you don't find any room, try to contact some other Erasmus students so you can look for a flat together.
- Social Media. Check FB/Instagram groups for possible roommates.
- Be aware of the scams! Use common sense!

SOME ADVICES

- Rent a flat in the city center or near Campus El Carmen: (Los Rosales, Fuentepiña, Isla Chica, Avda. Andalucía).
- Flat sharing with Spanish students is an optimal option, as it will ease your integration and help you to improve your Spanish language skills.
- Most students select their flat or room once they arrive, after spending some days in temporary accommodation.
BE CAREFUL with particulars who demand money upon arrival, there have been several scams with this.

WHERE TO RENT?

City Center: Flats in the City Center will be more expensive than the rest of zones, but is the best district in the city. If you are taking lessons in Campus La Merced, we would recommend you to start looking for accommodation in this zone, as the faculty is located in the City Center.

Avda. Andalucía: this avenue is just next to Campus El Carmen and, again, it will only take 5 min by walking to arrive there. Public transport has a good connection from there to the City Center too.

Isla Chica: this is one of the liveliest neighborhoods in Huelva, with lots of shops and services for you to live comfortably. It has a really good connection with university via bus (both campuses are well-connected), and riding a bike is also a good option for arriving to the Campus.

Los Rosales/Fuentepiña: these neighborhoods are really close to Campus El Carmen and it will only take 5 minutes walking to arrive to the university. Usually these flats are cheaper than other districts.
