PROGRAMME/SYLLABUS

1. DESCRIPTION

Theories and concepts in the sociology of work and organizations.
The social organization of work. From employment as a social norm to flexible employment.
The labour market: companies, states and other social actors. From employment to unemployment.
Labour participation and work conditions of different social groups. Technology and the future of work.

2. PREREQUISITES

3. OBJECTIVES/LEARNING OUTCOMES

- Capacity to understand the factors that structure social inequalities in the world of labour.
- Capacity to select and manage labour information and reports.
- Capacity to communicate by speaking and writing using the appropriate terms and techniques.
- Capacity to make analyses and diagnosis that may be of good use to policy making.

Therefore, the course covers two objectives, a theoretical and a practical.

4. TEACHING METHODOLOGY

Sessions will be conducted by the teacher, who will introduce and expose the main aspects of every theme. A selection of readings will be made available to students that are expected to read the texts in advanced. Depending on the number of students, the teacher may ask them to prepare and present specific parts of the programme. It is necessary in order to follow the classes that students bring the texts, with paper and pen (or lap top) with them to the classroom. In addition to the theoretical sessions, some sessions for discussion of study cases and empirical data will be organized.

All course materials will be made accessible through the Moodle platform and/or the copy room in the Faculty.

7. ASSESSMENT

An examination (0-10 points, a minimum of "5" points are required in order to pass the exam)

The exam will consist on answering to a number of short (15 lines) or/and multiple-choice questions.

Exam date: December 2017

*Optional complementary activities:

1- Responding to questions in the classroom – If the student obtains a majority of positive points, final mark increases in 1 point.

Periodically students in the classroom will be asked to answer to selected questions in a paper, having their readings with them. This will help them to fix the content of the sessions and to exercise for the final examination.

2 – Preparation and exposition of readings and case studies in the classroom (up to 30% of the final mark)

This activity will require a series of follow-up sessions with the teacher.

3- Portfolio (up to 30% of the final mark)

Compilation of student work assembled for the purpose of evaluating academic achievement.

Portfolios can be a physical or digital collection of student work. The digital may include presentations that offer the same documents and achievements as physical portfolios, but that may also incorporate additional content such as student-created videos, multimedia presentations, spreadsheets, websites, photographs, or other digital artefacts of learning. Students may be requested to present their portfolios publicly.

Attendance, participation and responsible behaviour in the classroom and at office hours may be considered with a value of 0.5 points in the final grade. On the contrary, negligence in the previous and in bringing the assigned readings to the corresponding session may be penalized with 0.25 points or more, if the student persists in the attitude.

CONTROL AND FOLLOW-UP MECHANISMS

Attendance to lectures is highly recommended.

Note: in general, the students' behaviour that intends to break the order and peace in the classroom, or show no respect to the teacher or other fellow students may be cause for termination of the student's right to be in the classroom.

Students must show their IDs during examination sessions and bring paper and a pen with them. They will have to keep quiet and refrain from looking at notes or fellows.

To contact the teacher through the internet, use a proper manner and language. Students have to start their messages with their full identification.
