ANEXO I

8. Systems and Assessment Criteria

8.1 System for Assessment:

- Written/ oral exam.
- Continuous assessment.

8.2 Assessment Criteria and Marks:

8.2.1 Examinations Convocatory I

All the evaluation activities will be subject to the Evaluation Regulation for the Official Degree and Master's Degrees of the University of Huelva (approved by the Governing Council on March 13, 2019): http://www.uhu.es/sec.general/Normativa/Textos_Pagina_Normativa/Normativa_2019/Rgto_evaluacion_grado_mofs_ccgg_19_03_13.pdf.

The final written exam for the subject, which accounts for 50% of the final grade, consists of 20 - 30 theoretical and practical multiple-choice questions that can be open, closed, multiple-choice or association. The remaining 50% of the final grade for the course can be obtained through continuous evaluation of the different activities and tests suggested in the Moodle platform, that must be delivered in a timely manner.

To pass the course, it will be necessary to obtain a minimum grade of 5 points out of 10. That being considered, in order to add the score of the continuous assessment to the student's grade, it will be an essential condition to have obtained a minimum grade of 4 points in the final exam.

Likewise, the regulations also contemplate the possibility of a single final evaluation, in which the student will be examined on the entire content of the subject. To qualify for it, the student, in the first two weeks of classes, or in the two weeks following enrollment if it has occurred after the start of the semester, will notify the coordinator of the course through email, using the email account provided by the University of Huelva. This will imply the express resignation to the continuous evaluation and the student won't be able to change the assessment method.

In ordinary calls II and III and other evaluations, the final grade will be 100% of the grade obtained in the final exam, which will follow the same format, evaluation criteria and qualification as in the case of the single final evaluation.

The qualification system used in this course is in accordance with that established in article 5 of Royal Decree 1125/2003, of September 5, which establishes the European credit system and the qualification system in university degrees of character official and valid throughout the national territory: The results obtained by the student in each of the subjects of the study plan will be graded according to the following numerical scale from 0 to 10, with an expression of one decimal, to which its corresponding qualitative rating may be added:

- 0.0 to 4.9: Fail (SS)
- 5.0 to 6.9: Pass (AP)
- 7.0 to 8.9: Notable (NT)
- 9.0 to 10: Excellent (SB)

The mention "With Honor" may be awarded to students who have obtained a grade equal to or greater than 9.0. Their number may not exceed 5% of the students enrolled in a subject in the corresponding academic year, unless the number of students enrolled is less than 20, in which case a single "With Honor".

In the event that the number of candidates for the mention "With Honor" is higher than the maximum allowed and they all have the same grades, an additional test will be proposed to break the tie.
