PROPOSAL

We propose to enjoy an unforgettable experience on the **Jabugo Route**, in the **Natural Park Sierra de Aracena and Picos de Aroche**, a beautiful place **Biosphere Reserved** located in the north of the province of Huelva. Here, it is where the Iberian pig is bred, in an **ecosystem of dehesas of holm oaks and cork oaks**.

The environment that surrounds us, both natural and architectural, makes the taste of our gourmet product "**El Jabugo**", a unique experience.

In Aracena, we will see one of the greatest treasures hidden in a cave, **the Gruta de las Maravillas**, a tourist icon that is a reference throughout the Sierra. The vast expanse of its lakes, the abundance and variety of calcareous formations, and its length make this underground complex an ensemble of great beauty.

In one hour by train, we will do the **Heritage Route of Aracena**, visiting the Old Town of the city to climb the Hill where are the **Castle Walls and the Gothic Fortaleza Church** belong to the **13th century**. Continuing the tour through the most significant neighborhoods both for their religious and civil buildings. We will also visit the **Museum of Contemporary Open-Air Art**.
