PROLOGUE	13
----------------	----

CHAPTER I: ECOPHYSIOLOGY AND GENETICS OF *QUERCUS SUBER*

1.1. ANATOMICAL CHARACTERIZATION OF THE <i>QUERCUS SUBER</i> ZYGOTIC EMBRYO DEVELOPMENT Dolores López-Vela, Cristina Celestino, Elena Carneros, Mariano Toribio, Jesús Alegre .	17
1.2. FINE-SCALE GENETIC STRUCTURE IN A <i>Q. SUBER</i> L.- <i>Q. ILEX</i> L. MIXED “DEHESA” Alvaro Soto, Zaida Lorenzo, Luis Gil	27
1.3. GENETIC VARIATION IN GROWTH AND FORM CHARACTERISTICS OF <i>QUERCUS SUBER</i> L. IN TUNISIA Mohamed Larbi Khouja, Lamia Hamrouni, Toumi Lamjed, Hedí Selim, Abdelhamid Khaldi	37
1.4. RESPONSES OF <i>QUERCUS SUBER</i> SEEDLINGS UNDER DIFFERENT LIGHT AND WATER TREATMENTS. GREENHOUSE AND FIELD EXPERIMENTS Rafael Villar, Teodoro Marañón, José Luis Quero, Ignacio M. Pérez-Ramos, Dolores Vega	49
1.5 LITTERFALL PRODUCTION OF CORK OAK FORESTS IN MONTSENY MASSIF IN RELATION TO CLIMATE Antònia Caritat, Lluís Vilar	61
1.6. COMPARATIVE ECOPHYSIOLOGY OF <i>QUERCUS SUBER</i> L. AND OTHER ACCOMPANYING OAK SPECIES IN DEHESA SYSTEMS: EFFECTS ON RESOURCE USE EFFICIENCY IN PHOTOSYNTHESIS Sonia Mediavilla, Alfonso Escudero	71
1.7. LEAF TRAITS AND PHOTOSYNTHETIC LIGHT RESPONSE OF <i>QUERCUS SUBER</i> L. SEEDLINGS GROWN IN A COMBINATION OF LIGHT AND WATER REGIMES José Luis Quero, Rafael Villar, Teodoro Marañón.....	81
1.8. SIMULATION ANALYSIS OF <i>QUERCUS ILEX-Q.SUBER</i> CHLOROPLAST INTROGRESSION Alvaro Soto, Unai López de Heredia, Juan José Robledo-Arnuncio, Luis Gil.	91
1.9 SEASONAL PATTERN OF PHYSIOLOGICAL STATE IN A CORK OAK (<i>QUERCUS SUBER</i> L.) STAND IN HUELVA (SPAIN) Arantazu González-Pérez, Javier Vázquez-Piqué, Raúl Tapias, Manuel Fernández	99

CHAPTER 2: CORK OAK GROWTH AND YIELD MODELS

2.1. A GENERALIZED HEIGHT-DIAMETER GROWTH EQUATION FOR CORK OAK FORESTS IN SPAIN Mariola Sánchez-González, Isabel Cañellas, Gregorio Montero	111
2.2. INFLUENCE OF CLIMATE AND SOIL CONDITIONS ON CORK OAK DIAMETER CHANGES. AN APPROACH BASED ON HIGH RESOLUTION POINT DENDROMETERS Javier Vázquez-Piqué, Enrique Torres, M ^a Angeles Suárez, Raúl Tapias, Arantzazu González-Pérez.....	123
2.3. CORK OAK WOOD GROWTH AND ANATOMY IN RELATION TO CLIMATIC FACTORS AND CORK EXTRACTION Sofia Leal, Helena Pereira	137
2.4. BAF: BEFORE AND AFTER STEM IMAGING AS A TOOL FOR ASSESSING THE CORK GROWTH Peter Surový, Nuno Ribeiro, Angelo Oliveira	147
2.5. EFFECT OF MINERAL FERTILIZATION ON YOUNG CORK OAK (<i>QUERCUS SUBER</i> L.) GROWTH AND LEAF MINERAL COMPOSITION Alberto Azevedo-Gomes, Maria Encarnação F. Marcelo, Pedro Vasconcelos-Jordão	157
2.6. GEOSTATISTICAL ESTIMATION OF THE VARIABLES RELATED TO THE CORK YIELD IN CORTES DE LA FRONTERA (MÁLAGA, SPAIN) Anabel Calzado, Enrique Torres, M ^a Ángeles Suárez, Ana M ^a Pino Toro	165
2.7. VARIATION IN CORK OAK RADIAL GROWTH Augusta Costa, Helena Pereira.....	173
2.8. INFLUENCE OF SILVICULTURE AND ENVIRONMENT ON CORK+WOOD GROWTH BASED ON BAND DENDROMETER DATA Javier Vázquez-Piqué, M ^a Angeles Suárez, Raúl Tapias, Enrique Torres.....	183

CHAPTER 3: REGENERATION AND SILVICULTURE

3.1. REGENERATION ECOLOGY OF <i>QUERCUS SUBER</i> (CORK OAK) IN SOUTHERN SPAIN Ignacio Manuel Pérez-Ramos, Itziar Rodríguez Urbieto, Miguel Ángel Zavala, Teodoro Marañón	195
3.2. PLANT REGENERATION FROM AN ENDANGERED VALUABLE CORK OAK TREE BY SOMATIC EMBRYOGENESIS Inmaculada Hernández, Cristina Celestino, Dolores López-Vela, Elena Carneros, Jesus Jiménez, Jesús Alegre, Luis Gil, Mariano Toribio.....	205

3.3. EFFECT OF <i>PINUS SYLVESTRIS</i> L. AND <i>PINUS NIGRA</i> ARN. THINNING ON JUVENILE CORK OAK (<i>QUERCUS SUBER</i> L.) GROWTH IN BOZOO (BURGOS, SPAIN) María Luisa Salguero, Carmen Allué, Carlos García-Güemes, Raúl Tapias, Arantzazu González-Pérez, Javier Vázquez-Piqué	213
--	-----

CHAPTER IV: HEALTH OF CORK OAK FORESTS

4.1. COURSE OF THE DECLINE INCIDENCE FROM 2002-2004 IN DECLINING CORK OAK STANDS IN SARDINIA Pino Angelo Ruiú, Clizia Sechi, Benedetto T. Linaldeddu, Antonio Franceschini	225
4.2. MICROBIOLOGICAL CONTROL OF LEPIDOPTEROUS DEFOLIATORS IN SARDINIAN CORK OAK FORESTS Pietro Luciano, Andrea Lentini	231
4.3. VARIABILITY IN THE TOLERANCE/RESISTANCE OF <i>QUERCUS SUBER</i> L. SEEDLINGS TO <i>PHYTOPHTHORA CINNAMOMI</i> RANDS. EVALUATION OF SURVIVAL Raul Tapias, Ana Cristina Moreira, Manuel Fernández, Angel Saenz, Ana Cristina Domingos, Elvira Melo, Alfredo Cravador	237
4.4. APPLICATION OF THE ELECTROANTENNOGRAPHY (EAG) OF OLFACTORY STIMULI IN THE CORK OAK (<i>QUERCUS SUBER</i> L.) WOODBORER <i>PRINOBIUS GERMARI</i> DEJEAN (COLEOPTERA, CERAMBYCIDAE) Israel Sánchez-Osorio, Raul Tapias, Luis Domínguez, Gloria López	247
4.5. DIVERSITY OF ENDOPHYTIC FUNGAL COMMUNITIES IN TWIGS AND LEAVES OF <i>QUERCUS SUBER</i> IN HEALTHY AND DECLINING CORK OAK FORESTS Benedetto Teodoro Linaldeddu, Lucia Maddau, Maria Antonia Pulina, Antonio Franceschini	259
4.6. PHYSIOLOGICAL EFFECTS OF <i>PHYTOPHTHORA CINNAMOMI</i> INFESTATIONS ON <i>QUERCUS SUBER</i> SEEDLINGS Raul Tapias, Manuel Fernández, Laura Salvador, Jacobo García, Javier Vázquez-Piqué, Enrique Torres, Alfredo Cravador	267
4.7. EARLY STAGES OF INFECTION OF CORK AND HOLM OAK TREES BY <i>PHYTOPHTHORA CINNAMOMI</i> Neuza Pires, Isabel Maia, Ana Moreira, Elvira Melo, Clara Medeira	279

CHAPTER V: MULTIOBJETIVE MANAGEMENT AND SUSTAINABILITY OF CORK OAK FORESTS

5.1. ADVANCES IN DECISION SUPPORT TOOLS FOR MULTI-OBJECTIVE CORK-OAK ECOSYSTEM MANAGEMENT
Jose Loff, Sandrina Pereira, Jose Borges, Margarida Tomé, André Falcão.....289

5.2. PHYTOPATHOLOGICAL ASPECTS IN THE CORK OAK FOREST MANAGEMENT
Antonio Franceschini, Piero Corda, Francesco Marras.....297

5.3. SUSTAINABLE MANAGEMENT OF CORK OAK (*QUERCUS SUBER* L.) FORESTS IN THE ALJIBE MOUNTAINS AND ‘CAMPO DE GIBRALTAR’ (CÁDIZ-MÁLAGA)
Vicente Jurado, Miguel Ángel Benítez307

5.4. MONITORING ENDANGERED CORK OAK AREAS: A CASE STUDY IN PORTUGAL
Augusta Costa, Helena Pereira.....319

5.5. CONSERVATION STATUS OF THERMOMEDITERRANEAN CORK-OAK FOREST IN THE PROVINCE OF HUELVA
Itziar López, Pablo J. Hidalgo, M^a Angeles de las Heras, Prudencia Vivas.....329

CHAPTER VI: CORK & WOOD PRODUCTION AND QUALITY

6.1. HYGROSCOPIC PROPERTIES AND DIMENSIONAL STABILITY OF CORK OAK WOOD
Vicelina Sousa, Sofia Leal, Helena Pereira.....341

6.2. VARIATION OF CORK OAK WOOD DENSITY
Jose L. Louzada, Sofia Knapic, Helena Pereira351

6.3. NEW METHODOLOGY TO DIFFERENTIATE CORK QUALITY CLASSES – THE DYNAMIC MECHANICAL THERMAL ANALYSIS
Miguel Pestana, Raúl M. A. Sardina, José Luis Louzada, António C. Diogo361

6.4. REPRODUCIBLE AND EXPEDITE CLASSIFICATION CRITERION TO FORESEE WHICH CORK STRIPS WILL GIVE GOOD STOPPERS OF NATURAL CORK
Miguel Pestana, José Luís Louzada, Raúl Sardinha.....371

6.5. CORK OAK WOOD: A HARD MATERIAL TO SAMPLE AND TO MEASURE
Sofia Leal, Arantzazu González-Perez, Javier Vázquez-Piqué,
Philipp Duncker, Heinrich Spiecker, Helena Pereira.....383

6.6. CORK OAK WOOD PROPERTIES	
Sofia Leal, Vicelina B. Sousa, Sofia Knapic, Jorge Gominho, Hélène Callot, José S. Machado, José Luis Louzada, Helena Pereira	393

6.7. RADIAL VARIATION OF WOOD CELL DIMENSIONS IN CORK OAK (<i>QUERCUS SUBER</i> L.)	
Sofia Leal, Vicelina B. Sousa, Helena Pereira	403

CHAPTER VII: INNOVATION AND NEW PRODUCTS

7.1. INDUSTRIAL TESTING OF CORK OAK WOOD FOR VENEER AND PLYWOOD PRODUCTION	
Javier Vázquez-Piqué, Arantzazu González-Pérez, Helena Pereira	417

7.2. STABILISATION OF SEWAGE SLUDGE USING CORK INDUSTRIAL WASTE	
Miguel Pestana	425

7.3. STEM RECONSTRUCTION MODELS AND SIMULATION PROGRAMMES.	
TOOLS TO EVALUATE POTENTIAL WOOD PRODUCTION IN YOUNG CORK OAKS	
Sofia Knapic, Isabel Pinto, Arto Usenius, Helena Pereira	435
